|          |  |            |
|----------|--|------------|
| <b>1</b> | <b>EXECUTIVE SUMMARY</b>                                   | <b>1-1</b> |
| 1.1      | Project Identification                                     | 1-1        |
| 1.2      | Description of Project Area                                | 1-2        |
| 1.3      | Purpose and Need for the Project                           | 1-4        |
| 1.4      | Summary of the Project                                     | 1-5        |
| 1.5      | Summary of Alternatives                                    | 1-6        |
| 1.6      | Identification of Potential Impacts of the Proposed Action | 1-7        |
| 1.7      | Identification of Major Benefits of the Proposed Action    | 1-9        |
| 1.8      | Permits And Approvals                                      | 1-10       |
| <b>2</b> | <b>DESCRIPTION OF THE PROPOSED ACTION</b>                  | <b>2-1</b> |
| 2.1      | Introduction and Background                                | 2-1        |
| 2.2      | Project Location   | 2-5        |
| 2.3      | Site History   | 2-5        |
| 2.4      | Project Design   | 2-12       |
| 2.5      | Permits and Approvals                                      | 2-40       |
| 2.6      | Project Need and Benefits                                  | 2-42       |
| <b>3</b> | <b>ENVIRONMENTAL SETTING</b>                               | <b>3-1</b> |
| 3.1      | Topography and Physiography                                | 3-1        |
| 3.2      | Soils  | 3-2        |
| 3.3      | Geology and Hydrogeology                                   | 3-3        |
| 3.4      | Water Resources  | 3-6        |
| 3.5      | Air Resources  | 3-16       |
| 3.6      | Ecological Resources                                       | 3-23       |
| 3.7      | Existing Landfill Conditions and Operational Setting       | 3-56       |
| 3.8      | Community Resources and Characteristics                    | 3-64       |
| <b>4</b> | <b>POTENTIAL ENVIRONMENTAL IMPACTS</b>                     | <b>4-1</b> |
| 4.1      | Earth Resources  | 4-2        |
| 4.2      | Water Resources  | 4-5        |
| 4.3      | Air Resources  | 4-12       |
| 4.4      | Ecological Resources                                       | 4-23       |
| 4.5      | Community Resources  | 4-30       |
| <b>5</b> | <b>ALTERNATIVES TO THE PROPOSED ACTION</b>                 | <b>5-1</b> |

## CONTENTS (Continued)

---

|           |  |             |
|-----------|--|-------------|
| 5.1       | No Action Alternative  | 5-1         |
| 5.2       | Alternative Site Evaluation                                    | 5-4         |
| 5.3       | Alternative Realignments for Black Brook                       | 5-17        |
| 5.4       | Conclusions  | 5-26        |
| <b>6</b>  | <b>UNAVOIDABLE ADVERSE ENVIRONMENTAL IMPACTS</b>               | <b>6-1</b>  |
| <b>7</b>  | <b>IRREVERSIBLE AND IRRETRIEVABLE COMMITMENTS OF RESOURCES</b> | <b>7-1</b>  |
| 7.1       | Natural Resources  | 7-1         |
| 7.2       | Energy Consumption and Man-Made Resources                      | 7-2         |
| 7.3       | Financial Resources  | 7-2         |
| <b>8</b>  | <b>DESCRIPTION OF MITIGATION MEASURES</b>                      | <b>8-1</b>  |
| 8.1       | Mitigation Measures  | 8-1         |
| 8.2       | Conclusion   | 8-11        |
| <b>9</b>  | <b>GROWTH INDUCING IMPACTS</b>                                 | <b>9-1</b>  |
| <b>10</b> | <b>EFFECTS ON THE USE AND CONSERVATION OF ENERGY</b>           | <b>10-1</b> |
| 10.1      | Anticipated Short-Term and Long-Term Levels of Consumption     | 10-1        |
| 10.2      | Indirect Effects on Energy Consumption                         | 10-1        |
| 10.3      | Energy Conservation Measures                                   | 10-2        |

### Tables

- 2-1 Groundwater Quality Monitoring Parameters
- 2-2 Post-Closure Site Inspections Criteria
- 2-3 Characteristics of Waste Deliveries to Seneca Meadows
- 2-4 Summary of Annual Waste Deliveries to Seneca Meadows
- 2-5 Summary and Origin of Waste Deliveries to Seneca Meadows
- 2-6 Summary of Annual Waste Deliveries to MSW Landfills and WTEs in New York State
- 2-7 Waste Quantity Projections for New York State
- 2-8 Projection of Available Landfill Capacity
- 3-1 Black Brook / Surface Water Sampling Data (2004)
- 3-2 Leachate Quality Data (2004)
- 3-3 Stormwater Discharge Data (2004)
- 3-4 Average Precipitation Data
- 3-5 Comparison of State and Federal Ambient Air Quality Standards
- 3-6 Existing Landfill Emissions From All Sources (2004)
- 3-7 Ecotypic Communities
- 3-8 Landfill Gas Odor Reports
- 3-9 Town of Seneca Falls Zoning and Town of Waterloo Zoning Summary
- 3-10 Truck Traffic Volumes (2002 – 2004)
- 3-11 Hourly Truck Distribution (2002 – 2004)
- 3-12 Visitors and Employee Traffic (June 2004)
- 3-13 Hourly Traffic Generation for Trucks, Visitors and Employees
- 3-14 NYSDOT Average Annual Daily Traffic Count
- 3-15 Traffic Counts for May 2004
- 3-16 Noise Survey Results (2004)
- 3-17 Direct Economic Contribution by SMI (1999 – 2004)
- 4-1 Landfill Gas Summary
- 4-2 Worst-Case Emissions 2023 (All Sources)
- 4-3 Landfill Expansion Modeling
- 4-4 Characteristics of Areas to be Impacted
- 4-4A Wetlands Impacts Black Brook Realignment
- 4-4B Wetlands Impacts Utility Relocation
- 4-5 Modeled Equipment Source Noise Levels for Work Crews
- 4-6 Total Sound Levels for Noise Receptors
- 5-1 Alternative Site Layouts Without Wetland Taking
- 5-2 Alternative Site Layouts Without Brook Realignment
